## About Yourself

Question	Notes or Sentences
Major or Department / Area of study (e.g. Mechanical Engineering / Tribology )	I am an electronic and electrical engineering student. My major is channel coding. This field is used for communication and semiconductor design.
What is your favorite thing to read in English? (e.g. subtitles to music videos, instructions to new games, favorite book in English, etc.)	I'm investing in stocks(trading). I'm particularly interested in the USA industry. So I enjoy reading foreign materials(internet news) such as CNN to read related industry news.
When is the best time and where is the best place for you to write? (In other words: Even for Korean writing, when you want to focus on writing as many pages as possible, when and where are you capable of writing for the longest period of time? e.g. 9pm-12am at my desk at home)	My favorite time(for writing) is 9 P.M.  Personally, I think I can concentrate well on writing at that time.  Because, '9 P.M.' is when I finish exercising & work.  So I think it's the best time because I can focus entirely on writing. At that time, write a cover letter or write an economic opinion on my blog.
When is the best time and where is the best place for you to come up with creative ideas?	My best time for creative ideas is after lunch time.  In other words, I think that when I take a walk after lunch, creative ideas come to mind well.  Recently, I read that successful people or super stars enjoy taking walks, carry notepads(Memo) all the time, and have a habit of organizing ideas when they come up with them.
What is your best skill?	Since I have invested in stocks(trading) since I was 19. So, My best skill is(confident skill) is stock investment(trading).
What is your best English Skill?	I am not good at English, So not confident in my English skill.

	But if there is an interesting field(ex) economy, research field, stock) in English, I try to find and understand information steadily.
