- What do and don't you think you will be able to do in this course?
- What are you most worried about in this course?

I am a second grade(2-2) student, so I am about to graduate. Therefore, I have to write a graduation paper.

Unlike Old school rules, recently it has been changed to english version's graduation papers(korean->english). Therefore, I took(participated in) the class.

Since I sometimes write my opinions (like column) about stock investment on my blog, so I familiar to writing. But I am afraid that I have to write English that I have only read.(paper or news)

I know that technical writing and general writing(news, novel) methods are different, so I want to study about that.

So, I want to develop my english writing skills about research topics, during class.

The biggest concern thing is Whether I can accurately convey my opinion in English as well as Korean.
